PUBLIC NOTICE
PROPOSED RENEWAL OF TITLE V PERMIT

Pursuant to Rule 5 of the Shasta County Air Quality Management District (District) Rules and Regulations, the Air Pollution Control Officer (APCO) has made a preliminary decision to renew an Operating Permit under Title V of the Federal Clean Air Act Amendments of 1990 to Lehigh Southwest Cement Company, which operates a Portland Cement Manufacturing Plant at 15390 Wonderland Blvd., Redding, CA 96003. The facility is a major source for nitrogen oxides, carbon monoxide, particulate matter, and hydrogen chloride and is subject to the Title V permitting program. This permitting action is the renewal of the Title V Operating Permit for the facility and does not involve an emission change.

Written comments regarding the proposed decision may be submitted to Shasta County Air Quality Management District within a period of thirty (30) days of the date of this Notice. Any comments received will be considered prior to the final determination by the APCO to issue the permit.

A public hearing to receive comment on this proposed decision has not been scheduled but one may be requested by submitting a written request to the District within thirty (30) days of the date of this Notice. Written request for a public hearing must include the requester's name, mailing address and a statement for the reasons for requesting a public hearing. Grounds for requesting a public hearing should be limited to issues relevant to District Rule 5, 'Additional Procedures For Issuing Permits To Operate For Sources Subject To Title V Of The Clean Air Act Amendments Of 1990.' If a public hearing is to be held, the District will provide thirty (30) days notification prior to holding the requested public hearing.

The application, proposed permit, and the District's Evaluation Report are available for inspection at the Shasta County Air Quality Management District, 1855 Placer Street, Suite 101, Redding, CA 96001. The proposed permit and Evaluation Report sets forth the legal and factual basis of the permit conditions contained in the proposed renewal permit. Written comments on the proposed decision or a request may be mailed or hand carried to the District at the above location. Additional information may be obtained from Richard W. Simon, APCO, at (530) 225-5674.

After the closure of this comment period, the District will provide the U.S. Environmental Protection Agency (EPA) with a 45-day review and objection period for this proposed decision. If the U.S. EPA Administrator does not object in writing, any person may petition the U.S. EPA Administrator to make such objection within 60 days after the expiration of the U.S. EPA review period. Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period for this proposed decision, unless the petitioner demonstrates that it was impracticable to raise such objections within such period or that the grounds for such objection arose after such period. The APCO shall not issue the permit until the EPA's objection has been resolved.
